

PROTECTING YOUR BUSINESS
FROM WHAT YOU DON'T SEE COMING

ADVANCED THREAT PROTECTION

**PASSWORDS &
FIREWALLS &
ANTIVIRUS &
SPAM FILTERS.**

CONVENTIONAL PROTECTION ISN'T ENOUGH

These are the bare requirements for protecting your business, documents, customers, and people from malicious attacks. They solve only a specific problem of stopping conventional hacker attack methods

PROBLEMS YOU CAN'T SEE

But what happens when a hacker uses a new technique, or they're already hiding on your computer network?

What if your people are tricked into doing their work for them?

What if you never saw them coming?

NEXT GENERATION SECURITY

ADVANCED THREAT PROTECTION from Teqworks provides the tools, processes, and attention to predict, prevent, detect, and recover from threats we can't see coming., 24/7/365.
